CAREER OBJECTIVE

Dedicated AI Trainer passionate about teaching Python, Machine Learning, and Generative AI. Committed to empowering students through hands-on instruction and practical technical projects.

TECHNICAL SKILLS

Core Competencies: Python, NumPy, Pandas, Matplotlib, Seaborn, Scikit-learn, Machine Learning, Prompt Engineering, Streamlit, Jupyter Notebook.

PROFESSIONAL EXPERIENCE

Technical Associate

May 2026 – July 2026

Indigo Trainings & IT Consultancy Services

- Coordinated with students during technical training sessions.
- Helped students successfully execute practical tasks and projects.
- Provided basic technical troubleshooting and continuous guidance.

TRAINING & MENTORING

- Mentored 600+ students through various workshops, online sessions, and active mentoring.
- Conducted 15+ interactive workshops and 15+ technical sessions across multiple platforms.
- Delivered curriculum focusing on Python, AI Fundamentals, Machine Learning, Generative AI, Prompt Engineering, and AI Tools.
- Hosted and managed technical seminars and educational online webinars.

PROJECTS

- AI Chatbot** – Built using Python, Streamlit, and API integrations.
- Face Recognition System** – Developed using Python and OpenCV.
- Heart Health Prediction System** – Machine Learning application deployed via Python and Streamlit.
- Customer Prediction System** – Predictive model built with Python, ML algorithms, Streamlit, and APIs.
- Loan Prediction System** – Financial assessment tool using Python, ML, Streamlit, and APIs.

EDUCATION

Diploma in Information Technology

Final Year

Government Polytechnic, Ghaziabad

High School

91%

Kisan Inter College

ACHIEVEMENTS & CERTIFICATIONS

- Rank 1** – Coders War, DigiCoders (2026)
